PROJECTS

Amazon Clone Project *HTML5, CSS3*

- Developed a responsive e-commerce style homepage inspired by modern online shopping interfaces.
- Implemented navigation bar, product sections, and footer with a clean structured layout.

Restaurant Menu Project *HTML5, CSS3*

- Built a responsive restaurant menu website with a clean and user-friendly interface.
- Organized menu content into clear sections for better readability and navigation.

Game Hub *HTML5, CSS3*

- Developed an interactive gaming website featuring multiple browser-based games.
- Designed user-friendly controls and a structured interface for an engaging experience.

AI Tools Hub *HTML5, CSS3*

- Created a website showcasing useful AI tools organized into different categories.
- Added tool descriptions, categorized sections, and simple navigation for better usability.

Rock Paper Scissors Game *HTML5, CSS3, JavaScript*

- Built an interactive browser-based game using JavaScript game logic and real-time user interaction.
- Implemented dynamic result display and responsive game controls.
